# Calvin Jude Gomes

Frontend Web Developer | React, Vue

Frontend Developer with 6+ years of experience building high-performance, scalable, and user-centric web applications. Strong in modern UI engineering, clean code, and performance optimization. Proven track record of improving page performance by up to 67%, enhancing user experience through UI revamps, and developing robust component-driven architectures across Strapi, Drupal, and WordPress ecosystems.

Work Experience

Frontend Web Developer @ **Bolser Digital Agency**
Jul 2024 – Present (Leeds, UK)

- Built **40+ reusable components** across Strapi, WordPress, and Drupal, improving development efficiency and consistency across multiple client projects
- Improved **Garolla's site performance by 67%** through frontend optimization, efficient state management, and GraphQL-based data fetching
- Rebuilt the **RAF Museum** website using **Astro**, reducing page load times by **30–40%** and significantly lowering JavaScript bundle size
- Revamped the UI/UX for **Football Foundation** and **Premier League Stadium Fund**, reducing **click-depth by 25%** and improving overall user task efficiency

UI/UX Engineer, Frontend Web Developer @ **U Energy**
Jan 2024 – Jun 2024 (Huddersfield, UK)

- Led a **3-member frontend team** to design and develop a real-time energy management dashboard, improving delivery efficiency by **45%** through structured component development and clear task delegation
- Introduced **Figma for UI/UX alignment** and standardized React + Redux practices, reducing UI inconsistencies and design-to-development rework
- Integrated **Node.js** and **MongoDB** within the frontend workflow to enhance system responsiveness and streamline high-frequency energy data updates

Product Engineer, Frontend Developer @ **Codingmart Technologies**
Dec 2019 – Aug 2022 (Bangalore, IN)

- Delivered a high-pressure client project within just **2 months**, achieving **95% client satisfaction** and demonstrating rapid adaptability
- Increased efficiency and engagement across **AFK by Decathlon** and **OkC Blog** projects, driving **30–40% improvements** through UI and performance optimizations
- Built core features for **OkCredit's money transfer application**, enabling a **94% error-free release** and improving customer experience

Web Developer @ **Freelance**
May 2017 – Nov 2019 (Chennai, IN)

- Built SEO-friendly, mobile-first websites for small businesses, improving search visibility and user experience across devices
- Implemented fully responsive, high-performance web pages using modern technologies such as HTML, CSS, JavaScript, PHP, and jQuery
- Improved website load times by **20–30%** through optimization techniques, ensuring smooth performance and cross-browser compatibility

Skills

Technical Languages

JavaScript (ES6+), TypeScript, HTML, CSS, Sass, SQL, PHP, Python

Libraries & Frameworks

React JS, Redux, Context API, Vue 3, Astro, GraphQL (Apollo), Node.js, Express.js, Styled Components, MUI, Tailwind CSS, jQuery, REST APIs, Websockets, Headless CMS (Strapi, Drupal, WordPress, Contentful)

Tools & Platforms

Git, Github, Docker, Cypress (E2E Testing), CI/CD pipelines, Jira, Figma, Vercel / Netlify

Hard Skills

Responsive UI Development, Component-Driven Architecture, State Management (Redux / Context), API Integration & Debugging, Performance Optimization, Cross-Browser Compatibility, Accessibility (WCAG), Testing (Unit / E2E)

Soft Skills

Problem Solving, Communication, Team Collaboration, Time Management, Adaptability, Ownership & Accountability

Education

Master's in Business Analytics
University of Liverpool, UK
Grade: Distinction

Bachelor's in Information Technology
Anna University, India
Grade: First Class
